Session: Fall 2025

Section: D (Morning)

Date: 22 December 2025

INTRODUCTION

A real estate agency is a **professional company** that assists customers with the purchase, sale, and management of real estate, including **commercial buildings, villas, apartments, and land**. It serves as a reliable conduit between buyers, agents, and property owners, guaranteeing that all real estate transactions are managed in an **organised, safe, and open way**.

The creation of a real estate website that offers consumers a **structured online platform** is the main goal of this project. The Home page helps visitors quickly grasp the website's goal by providing an overview of the services and properties that are highlighted. The **Buy section** makes it simpler and more effective for users to search for real estate by enabling them to examine various property categories, such as land, commercial properties, apartments, and villas. **Property owners can list their properties on the Sell page** and use the agency to connect with possible buyers.

The Agents page presents qualified real estate brokers who assist clients during the purchasing and selling process in order to improve communication and trust. The agency's mission, values, and real estate market experience are described on the **"About Us" page**. Additionally, **users can share their experiences and recommendations on the Feedback page**, which enhances customer satisfaction and service quality.

This project's primary goal is to provide a **user-friendly website that illustrates the fundamental functions of a real estate company**. It makes finding properties easier, encourages well-organised data management, and gives users clear information based on their needs and financial constraints. Overall, the website presents a **structured and practical model** of how modern real estate businesses operate using digital technology

OBJECTIVES AND SCOPE

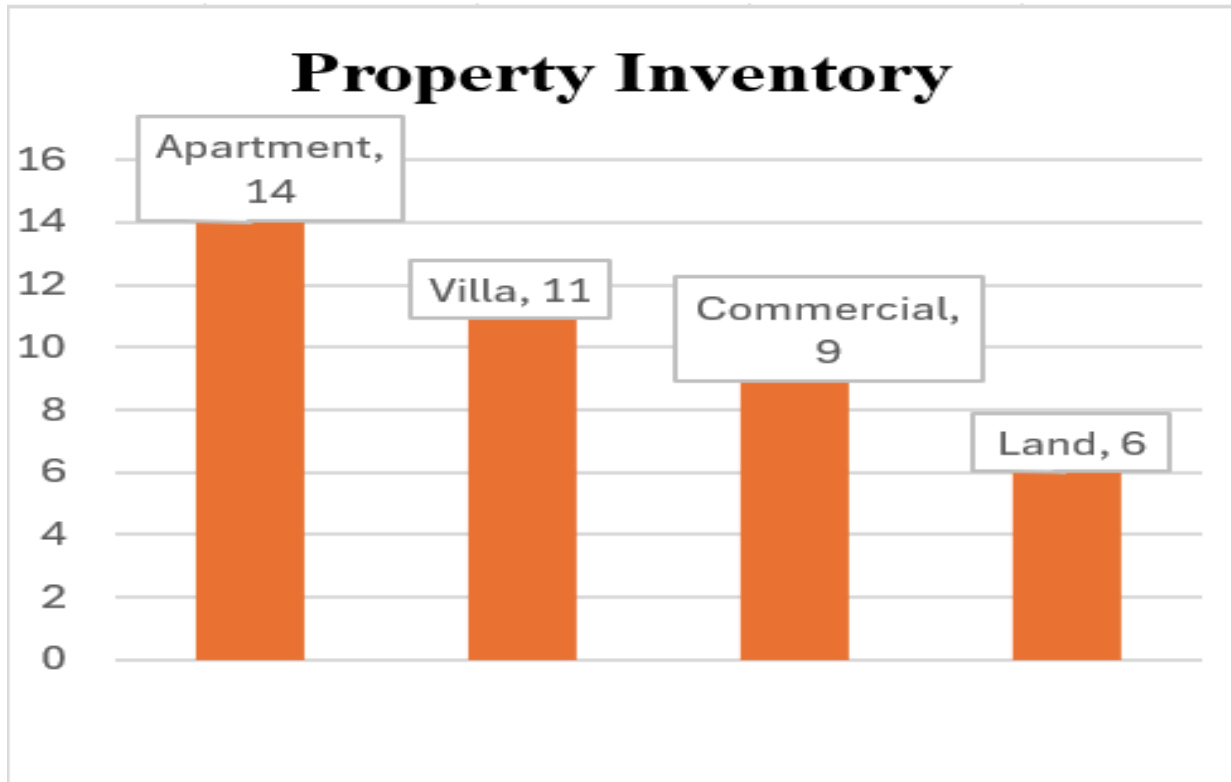

This project's primary goal is to create a website for a real estate agency that offers concise, well-organised details about available properties. Viewing property listings and getting in touch with the agency should be simple for users thanks to the website.

The project's particular goals are:

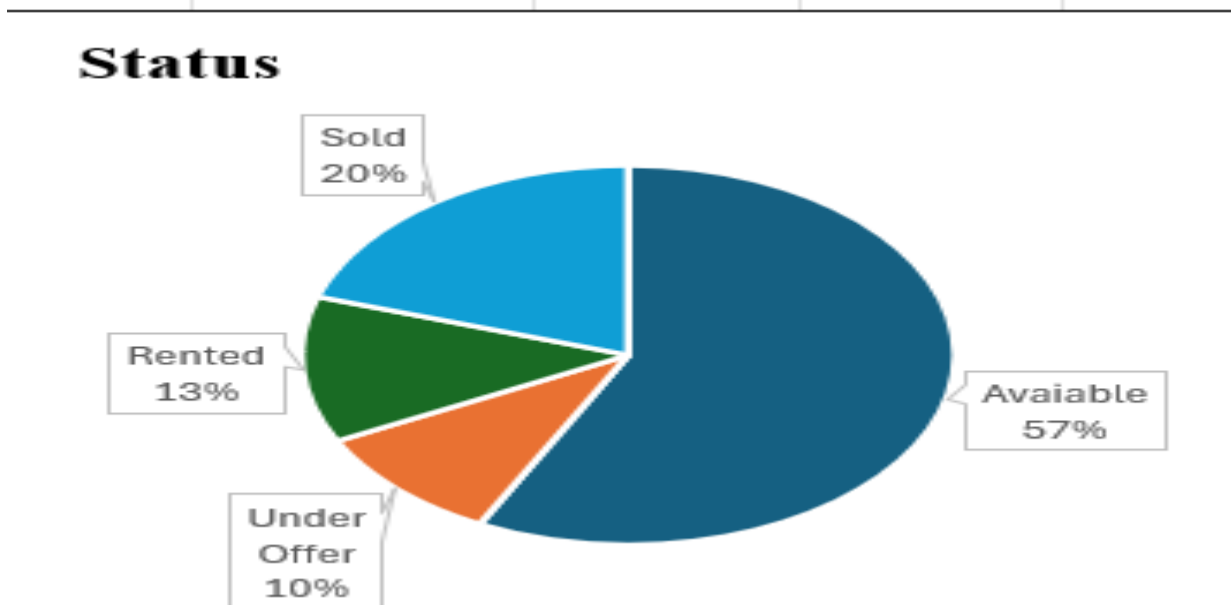

- To create a home page that effectively presents the real estate company and its offerings.
- To create a Buy section for villas, apartments, commercial, and land.
- To offer thorough and arranged property details on the Buy pages.
- To develop a Sell page where property owners can quickly submit the details of their properties.
- To present a page with agent profiles and contact details for professional agents.
- To assist users in selecting appropriate agents according to their real estate requirements
- To add an About Us page outlining the company's history, goals, and core principles.
- To increase user trust by providing clear and truthful company information
- To create a feedback page where users can offer recommendations and experiences.
- To enhance customer service and website quality by utilising user feedback

DATA SUMMARY & OBSERVATION

Types of properties available for our valuable clients

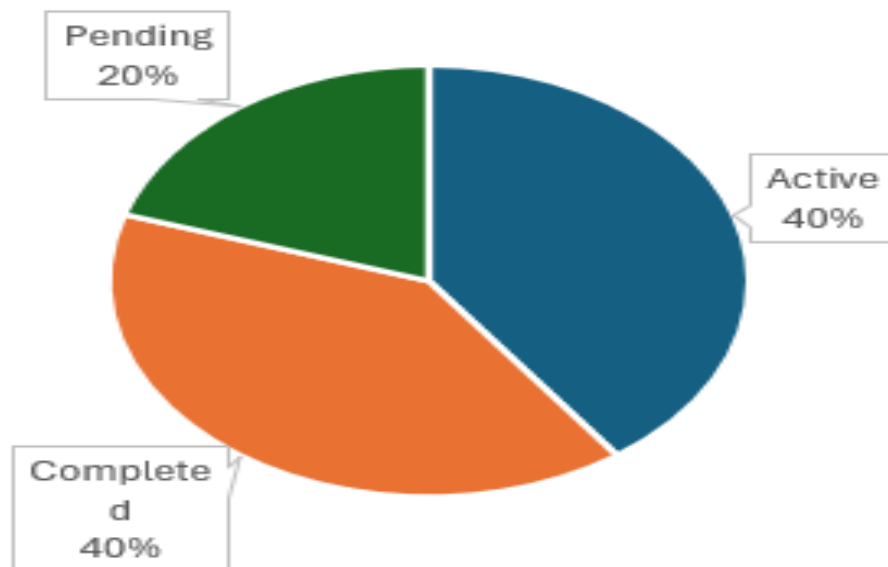

Status of Properties offered available, sold, rented etc.

Status of deals carried out (active, closed or completed)

Deal (Status)

Types of clients (Buyers or Tenants)

Type of Client

Here is some of the data about our business sales, profits etc.

Total Sales Value	\$24,025,000.00
Total Rental Value	\$57,650.00
Total Gross Commission	\$659,805.00
Operational Expenses	\$50,000.00
Net Profit	\$609,805.00
Average Deal Value	\$602,066.25

SITE STRUCTURE AND NAVIGATION

Our website is on Real Estate and the main focus of our site is to facilitate our clients and customers in buying, selling and take properties on rent. We try our best to provide basic features easily available in order to buy/sell properties.

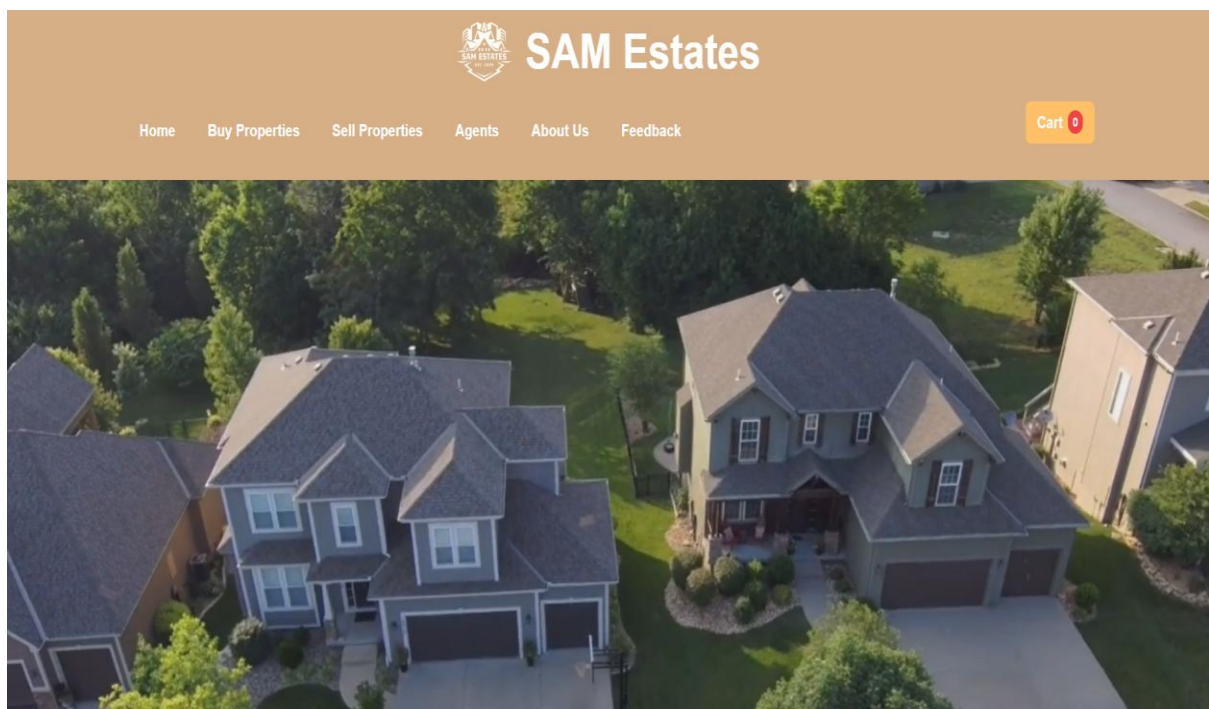

Our site consist of **6 pages**

1. Home
2. Buy
3. Sell
4. Agents
5. About us
6. Feedback.
7. Mortgage
8. Gallery

HOME:

First page of our website is home page; it is also as **introductory page** of our website.

It also tells the purpose of our website.

BUY AND SELL:

These pages are one of the main pages of our site. Here we listed the properties we offered such as **Apartments, Villas, Commercial, Land**.

In sell section we also provide our beloved customers to list their properties for sell also to facilitate them in this purpose also because it is also one of the main objects of **Real Estate**.

Key Offers

Mortgage:

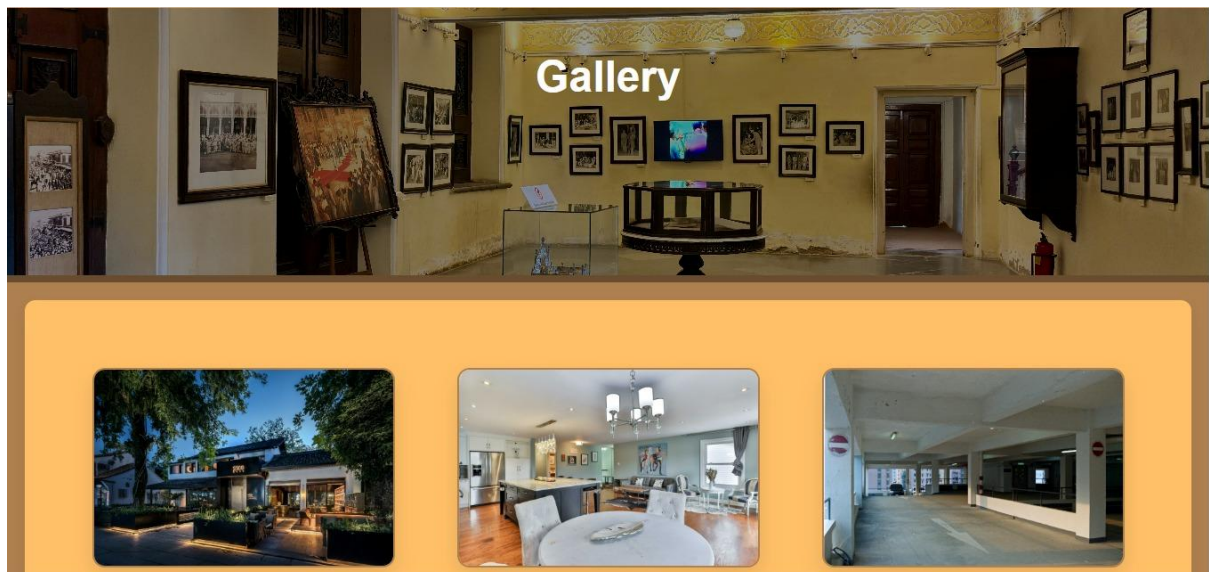

This page of our website is for those persons that are unable to buy land and full prices, we provide them the opportunity to acquire the land fully and pay us in installments further.

The screenshot shows a web form titled "Buy on Mortgage" with a subtitle "Want to buy on mortgage any property. Send us a message!". The form is set against a dark blue background and contains four input fields: "Full Name" with placeholder text "Your Name", "Your Area" with placeholder text "Your Area", "Email Address" with placeholder text "yourname@example.com", and "Property Type".

Gallery:

Here we include the pictures of available properties so that our clients can understand the conditions of the properties easily and can make their decisions easily.

About us:

Here we provide the **information of ourselves** that who are responsible for the site and who are actually behind all the stuff controlling and managing the site to facilitate our customers.

About SAM Estates

Founded in 2025, DreamHome has quickly become a trusted name in the real estate market. We specialize in connecting buyers with their perfect homes and investors with lucrative opportunities.

Our mission is to provide transparency, integrity, and excellence in every transaction. Whether you are looking for a seaside villa, a city apartment, or commercial land, our team is dedicated to making your dream a reality.

Feedback:

This page is specially for our beloved customers to provide feedback of our site and tells us our mistakes and issue regarding sites and also suggestions to improve all the stuff on the website

Feedback & Inquiries

How can we help you today?

Send Message

HOW TO RUN AND PUBLISH THE SITE

- Organize all files (HTML, CSS, images, etc.) in a single folder.
- Ensure file paths are relative (e.g., css/style.css) to avoid broken links.

Create a GitHub Repository

- Sign in to [GitHub](#) and create a new repository.
- Name it appropriately

Upload Project Files

- Click Add Files → Upload Files in your repository.
- Drag your project folder files and commit changes.

Enable GitHub Pages

- Go to Settings → Pages in your repository.
- Under Source, select the branch main and folder root.
- Click Save.

Get Your Live URL

- GitHub will provide a URL like:
- <https://your-username.github.io/repository-name/>
- Open it in a browser to check your live site.

Update and Maintain

- Any changes you make locally can be uploaded to GitHub again.
- The live site updates automatically after committing changes

LIVE URL: <https://bit.ly/45hm94z>

GITHUB LINK: <https://bit.ly/3Lbphbh>

Reflections (What Was Learned)

1. Real estate agencies help clients buy, sell, and rent properties, making the process easier and more organized.
2. Keeping accurate records of available properties is important to provide correct information to clients.
3. Understanding client needs, such as property type, location, and budget, is essential for offering suitable options.
4. Displaying property details on a website, including price, location, and type, improves client accessibility.
5. The role of agents and proper communication is key in guiding clients through property transactions.

Improvements (Areas for Enhancement)

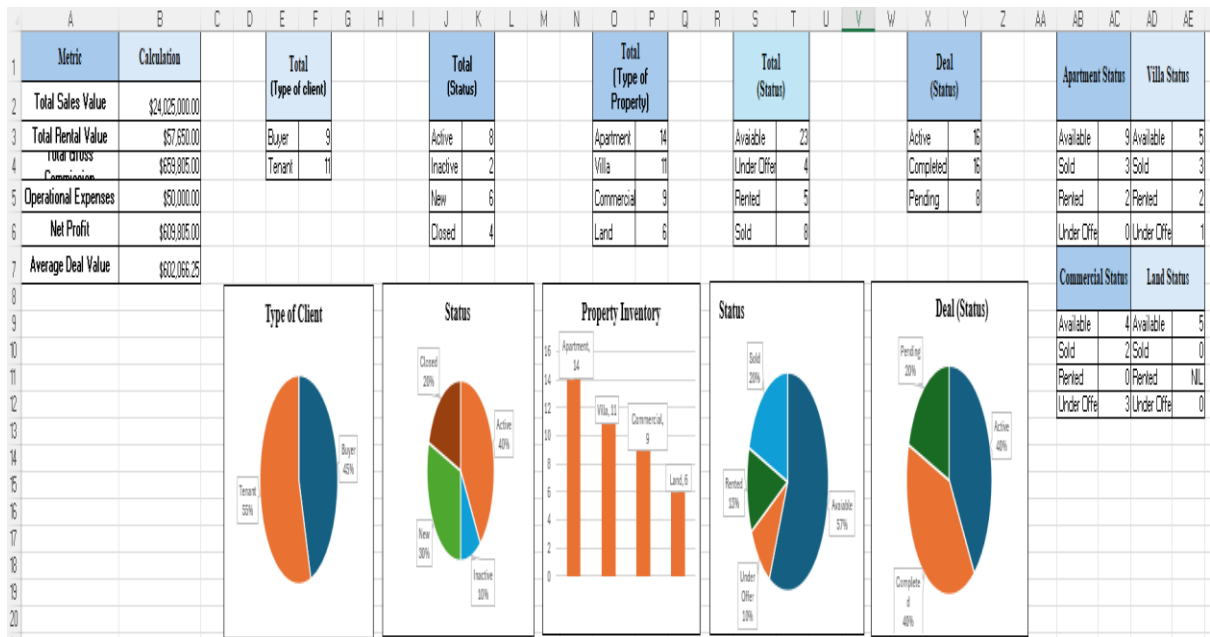

1. Add search filters on the website to make finding homes, apartments, villas, land, or commercial property faster.
2. Include more detailed images or virtual tours for properties to give clients a better view without visiting.
3. Implement a feedback system to gather client opinions and improve services.
4. Ensure property listings are updated frequently to remove sold or rented properties.
5. Introduce notifications for clients about new properties matching their preferences.

A PowerPoint slide titled "INTRODUCTION" with a large red arrow pointing downwards. The slide contains a bulleted list describing the purpose and features of the real estate website project.

INTRODUCTION

- ❑ A real estate agency helps clients buy, sell, and manage properties such as land, apartments, villas, and commercial buildings.
- ❑ This project develops a **user-friendly real estate website** that acts as a secure and organized platform for buyers, sellers, and agents.
- ❑ Key sections include **Home, Buy, Sell, Agents, About Us**, and **Feedback** to simplify property search, listing, and communication.
- ❑ The website improves transparency, trust, and efficiency while demonstrating how modern real estate businesses operate digitally.

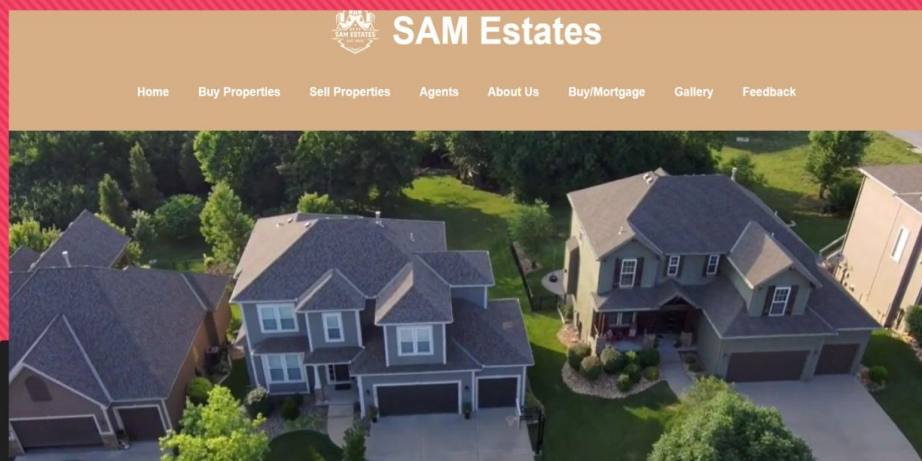

OBJECTIVES ↓

- ❑ To design a clear home page presenting the company and its services.
- ❑ To provide Buy and Sell sections for easy property searching and listing.
- ❑ To display detailed property information and professional agent profiles.
- ❑ To help users choose suitable agents based on their needs.
- ❑ To build trust through an About Us page and improve services using user feedback.

WEBSITE OVERVIEW

- ❑ Our website consists of eight main pages designed for easy navigation.

- ❖ Home
- ❖ Buy
- ❖ Sell
- ❖ Agents
- ❖ About us
- ❖ Feedback
- ❖ Mortgage
- ❖ Gallery

WEBSITE OVERVIEW

HOME

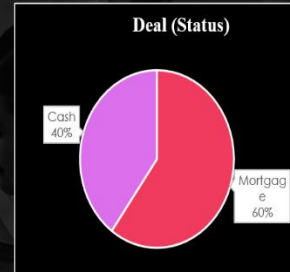

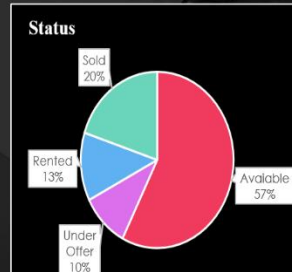

DESIGN

- ❑ Clean UI for easy navigation
- ❑ Separate pages for buyers and sellers
- ❑ Simple color scheme
- ❑ Organized data display

Inventory, Status, Deal

■ We used Excel to analyze business performance including status, deal, inventory.

PROPERTY TOUR

■ The gallery works as a virtual tour for users

Our Services

Modern Apartments

Smart living spaces in prime locations.

Commercial Spaces

Perfect locations for your business growth.

Luxury Villas

Explore premium villas with ocean views.

Our Services

LEGAL RELOCATION

Smooth transition for your legal needs.

LAND ACQUISITION

Unlock the potential of your future property.

WEBSITE SCREENSHOTS

The screenshot shows a form titled 'Buy on Mortgage' on a blue background. The form is contained within a dark blue rectangular area. At the top of the form, the title 'Buy on Mortgage' is displayed in a large, bold, white font. Below the title, there is a line of text: 'Want to buy on mortgage any property. Send us a message!'. The form contains four input fields, each with a label above it: 'Full Name' with a placeholder 'Your Name', 'Your Area' with a placeholder 'Your Area', 'Email Address' with a placeholder 'yourname@example.com', and 'Property Type' which is currently empty.

<https://bit.ly/3Lbphbh> ✓

Team Members:

- Muhammad Shahzaib - MS Excel & Web Development assistance
- Muhammad Anas Bin Talib - Power Point & Presentation
- Muhammad Ahmad Chaudhry -Web Design & Development (Mainly)
- Arslan Emran - MS Word & Data Gathering and integrity
- Moghees Mohiuddin - Video Animation & Website Development support

👉 Team Coordination:

We worked with clear task distribution, regular discussions, and collaborative problem-solving, which helped us meet milestones efficiently and improve the overall quality of the project.
